

## Sea Foam

Gabe Bondoc

Sea foam washing over me  
You drown me in, I'm the sand and your my sea  
Ankle deep and I'm so ready for more, more of this

Fallin' down on your waterfall  
Feel the crash it's my heart, oh waterfall  
Knee deep and I'm so crazy about ya  
Where do I begin?

[Chorus:]

With a smile like that means the summertime  
Stare in your eyes all day right up the waterline  
The way you say my name crashes over me  
I'll never leave  
Push, push, pull  
Pull me down in your undertow I'm loving the everflow of you now  
Push, push, pull  
Wanna sit by your ocean side I was winded by your tide oh yeah  
With a body like that, body of water  
Splashing, I'll splash you right back  
I'll take you on, you're all I need  
You and the sea  
You and the sea

I still remember the day you caught your first wave  
Tried to ride it out, you made my heart race  
Waist deep but I'm not wasting my time here with you

Cause you got everything I need  
And I hope you feel the same with me  
I'm shoulder deep but I'm not breaking  
You're all I ever want

[Chorus]

You, you are the one that I want girl, oh yeah  
You, you are the one that I needed for so long  
You, your worth the time and the practice  
I don't mess this, oh mess this thing up  
Cause your the one

[Chorus]
