Storm Chaser

Gabe Bondoc

You never never believe me,
never believe me though I tell you it's true, so true.
Your heart's been broken so many times
I'm not sure where to start with you.
Can't let the past cloud a future.
I climb, its climbing baby don't cool me down
Whether the storm, and I'll, I'll keep you warm
if you try to believe me somehow.
Girl we can figure this out.

[Chorus:]
I don't care if you're a hurricane, I'll give chase.
I don't care if it's dangerous baby I'll still give chase.
I don't wanna play it safe, I don't wanna be sane,
I don't want to have to settle for another girl
I'm chasing you, like a storm chaser.
Like a storm chaser....
Girl I'm chasing you

Know that I'm strong I can handle anything you throw
Tell me if you got something on your mind let it blow.
Don't be afraid of the rain at all,
cause the beauty's in the way it falls.
When things get too hard to handle,
Just take my hand and find my eyes through the storm.
Don't have no fear baby I'm, I'm standing here.
If you try to believe me somehow.
Girl we can figure this out.

[Chorus]

I don't care if I catch a cold from your shoulder.
I don't care if the winds that blow, blow me off.
I don't dare leave my post I'm here for you gotta
make me believe somehow.
