

The Best Thing

Gabe Bondoc

I was a sailor a long time ago and
I sailed the seas went wherever the wind would blow
with
No crew no clue what I was doing at the time it felt
right
It was a small boat
I didn't care bout the size
The ocean so big
It wouldn't matter my life
Could feel magnificent but in the blink of an eye
Feel insignificant and I'll explain to you why

I'll explain to you why

The best thing that ever happened to me
happened when I decided to take a break from the sea
The best thing that ever happened to me
happened when I decided to take a break from the sea

Well I met a mermaid her name was Ariel
She said she loved me but wasn't into her
I wonder how she is
She deserves nothing less than a prince
I fought a shark it was wild And never gave up
Adventure called for the moment that I would wake up
I brought a journal but never found the time to write
the best parts.... Down...

I'll explain to you why
The best thing that ever happened to me
happened when I decided to take a break from the sea
The best thing that ever happened to me
happened when I decided to take a break from the sea

And yes its nice here with all the earth and the grass
I miss the ocean but what I have here grand
No I'll never leave you I'd miss you much more than any
boat I've ever had
And I no don't mind the sand at all
Not at all

The best thing that ever happened to me
happened when I decided to take a break from the sea
The best thing that ever happened to me
happened when I decided to take a break from the sea
