

bad lie

Gabriel Black

You say you love me for my flaws
Tell me that I'm all you ever wanted
You say you love me for my flaws
Tell me that I'm all you ever wanted
That's just a bad lie
That's just a bad lie
That's just a bad

Tell me that you love me
But you never wanna fuck me
I don't wanna another friend
I got plenty side my head already
Tell me that you love me and you miss me
But you never send pictures of your titties
How come?
Sit alone in my room all night
Anything good goes bad, right?
Anything could be better than this
Mars alone sounds fantastic
Wrap my head up in plastic
Suffocate me as the ship is crashin'
How nice

You love me for my flaws
Tell me that I'm all you ever wanted
You say you love me for my flaws
Tell me that I'm all you ever wanted
That's just a bad lie
That's just a bad lie
That's just a bad lie
That's just a bad lie
