

## Enemy

Gabriel Black

So long sugar, I'm scrubbing you out my backseat  
And every other place we ever did the nasty  
Thinking bout' how you treated me so badly  
The only way I could ever love you was madly

Don't you hate this part  
There can be no other way  
It still breaks my heart  
But this is how it's gotta be

If I can't be your lover  
I must become your enemy, enemy  
If I can't be your lover  
I must become your enemy, enemy

Keep on looking for you inside of my sweet dreams  
With every memory another fire burns green  
When it came down, you always were looking passed me  
The only way I could ever love you was madly

Don't you hate this part  
There can be no other way  
It still breaks my heart  
But this is how it's gotta be

If I can't be your lover  
I must become your enemy, enemy  
If I can't be your lover  
I must become your enemy, enemy

Don't you hate this part  
There can be no other way  
It still breaks my heart  
But this is how it's gotta be
