

Flames

Gabriel Black

I've been walking through the flames at night
And I can't stay at your side forever
I've been walking through the flames at night
And I can't light your cigarette forever

Say the same old shit now
While I always dance around you
How you always gon' put me down?
Like I ain't killed for you
CNN'll sell you
Fake news tryna break us
But I can't hold us both forever

I keep walking through the flames at night
And I can't hold your light forever
I keep walking through the flames at night
And I can't light your cigarette forever

Yeah, I keep reaching for something that I can't grab
I'm drinking like I'm looking for something in a glass
I'm walking like I know just where I'm going (Going)
Take two of these, call me in the morning (Morning)
I mean call me when you're horny
Okay, I missed the call, I was soaring
I'm chucking up the deuce, girl, this is not a Mercedes
Okay it never gets boring (Mhm)
Yeah, that's all (That's all)
If you land on the ground, that's your ass fault
I tried to help you up but now my arm sore
I tried to help you up, I'm feeling bulletproof

I keep walking through the flames at night
And I can't hold your light forever
I keep walking through the flames at night
And I can't light your cigarette forever
