

## Forest Fire

Gabriel Black

There's a forest fire burning in my head  
There's a forest fire burning in my head  
There's a forest fire burning in my head  
There's a forest fire burning in my head

Yeah you got people in your head saying the same thing  
That everybody says when your back is rotated  
A wannabe, you'll never be the celebrated  
You're at the point of giving up and then just dangling, hey ye  
ah

There's a forest fire raging in my head  
There's a forest fire raging in my head  
There's a forest fire raging in my head  
There's a forest fire raging in my head

'Boutta go back to the basics, acting amazed  
But I don't feel attached to the slash of the razors  
Mask and a cape but it's actually fake  
'Cause I never been a hero with the dragon I'm chasing  
Always been one for the baffling statements  
So if they hate me I hope it's passionate hatred  
What is life if you don't actually make it  
What's a night not going mad in my basement?

There's a forest fire raging in my head  
There's a forest fire raging in my head
