

# Dancing By Myself

Gabriela Bee

Hello, goodbye  
Here I go again  
I'm looking for the exit  
Maybe this time  
I can just pretend  
We aren't all just faking  
(Can I have my voice up a little?)

I'll see this through  
Won't hesitate, no, no  
Nothing to lose  
When the lights come on  
When the lights come on

We all need a little help  
To feel better 'bout ourselves  
Put our hands up to the sky  
Thinking 'bout nobody else  
We get lost inside our minds  
But I found myself tonight  
Put my hands up, wave goodbye  
I'll keep dancing by myself  
Yeah, I'll keep dancing by myself

Nightlife, lo-fi  
Strangers into friends  
I'm looking for the good ones  
Can't stop, won't stop  
Please don't let this end  
There's no sleep till Brooklyn  
(There's no sleep till Brooklyn!)

I'll see this through  
Won't hesitate, no, no  
Nothing to lose  
When the lights come on  
When the lights come on

We all need a little help  
To feel better 'bout ourselves  
Put our hands up to the sky  
Thinking 'bout nobody else  
We get lost inside our minds  
But I found myself tonight  
Put my hands up, wave goodbye  
I'll keep dancing by myself  
Yeah, I'll keep dancing by myself  
(I'll keep dancing by my...)

By myself, self  
By myself, self  
By myself, self  
Yeah, I'll keep dancing by myself  
By myself, self  
By myself  
By myself, self  
I'll keep dancing by myself

By myself, self  
By myself  
By myself, self  
Yeah, I'll keep dancing by myself  
By myself, self  
By myself  
By myself, self  
I'll keep dancing by myself

(I'll keep dancing by myself  
By myself)
