

Sound In Color

Gabriela Bee

I feel there's something changing in real time
It's a transformation that I can't hide, no
You light me up like it's nothing
You making me into something
With a fire inside
Yeah

When I'm falling apart yeah you're always my safety net
I take a jump off the edge and I know that you'll never let me fall
It's a rush to the senses, such a sweet luminescence
That I can't quite describe

Oh, I'm seeing sound in color
Every time that I get around ya
Oh, oh, oh
No, I'll never let you go

Got me headed straight for the skyline
Turning every echo into a symphony
And my heart's screaming loud, yeah
Since you came around, yeah
No, I can't turn it down

When I'm falling apart yeah you're always my safety net
I take a jump off the edge and I know that you'll never let me fall
And I don't mean to push, no
I just thought that you should know
You take the weight off my mind

Oh, I'm seeing sound in color
Every time that I get around ya
Oh, oh, oh
No, I'll never let you go

Color
Color
Color

Oh, I'm seeing sound in color
Every time that I get around ya
Oh, oh, oh
No, I'll never let you go

Oh, I'm seeing sound in color
Every time that I get around ya
Oh, oh, oh
No, I'll never let you go
