

U Get Me

Gabriela Bee

We alright, we ok (Hey!)
And everything'll be fine today
'Cause I get you, and you get me
And maybe that's all we need
You know I'll back you up (What!)
Until the world catches up to us
'Cause I get you, and you get me
And maybe that's all we need

Some say weirdo - you're my hero
Like Deniro in the mirror
"You talkin' to me, you talkin' to me!"
'Cause I don't see anybody else here, so ya must be!"
Some say freak - I say unique
We like to geek out - hide and seek out
Truth and lies, but we're not tryin'a peace out
Show the people how to be now

You know you're as weird as me
Always runnin' wild and free
Ride or die and let our freak flag fly

We alright, we ok (Hey!)
And everything'll be fine today
'Cause I get you, and you get me
And maybe that's all we need
You know I'll back you up (What!)
Until the world catches up to us
'Cause I get you, and you get me
And maybe that's all we need

Life's a circus - don't be nervous
You know it's you and me versus...
Our true selves, but everyone else
Is crazy as hell underneath the surface
Find your purpose - be of service
Join the parade, 'cause that's our church yes
No one's worthless, celebrate diverseness
Infinite universes

You know you're as weird as me
Always runnin' wild and free
Ride or die and let our freak flag fly

We alright, we ok
And everything'll be fine today
'Cause I get you, and you get me
And maybe that's all we need
You know I'll back you up (what!)
Until the world catches up to us
'Cause I get you, and you get me
And maybe that's all we need

If you're a freak
Lemme hear ya speak
If you're a freak
Lemme hear ya speak

(Hey!)

We alright, we ok
And everything'll be fine today
'Cause I get you, and you get me
And maybe that's all we need
I get you, you get me
And maybe that's all we need
I get you, you get me
And maybe that's all we need
Cause I get you, you get me (What!)
You get me that's all I need
I get you, you get me
And maybe that's all we need
