

# Highway

Gabriella Cilmi

I've lost my dreams  
Along the highway  
You couldn't love  
What I've become

Now it seems  
You won't go highway  
You split the seams  
Inside of me

I've lost my dreams  
Along the highway  
Light up the sky  
Or I would die

In my sleep  
I had it my way  
Selling me  
I believe

And it tests me out  
Tests me out  
'cause you're bottled up inside  
It tests me out  
Tests me out  
And a little of me dies

How does it feel when you take my life  
Look in my eyes and then you tell me lies  
How does it feel you used to be my friend  
You win twice  
I lose it all again

I love to dream  
Along the skyline  
And feel the rain  
Pleases my pain

I see the light  
But it burns through my eyes  
I'm waiting stressed  
Just like this stressed

And it tests me out  
Tests me out  
'cause you're bottled up inside  
It tests me out  
Tests me out  
And a little of me dies

How does it feel when you take my life  
Look in my eyes and then you tell me lies  
How does it feel you used to be my friend  
You win twice  
I lose it all again  
I lose it all again  
(I lose it all again)

(Let you tell me lies)
