

Superman

Gabriella Cilmi

Falling so fast for you
I need a parachute
Ain't nothing I can do
So I just go easy

You're in my head
I know that you can tell
We've only just met
But I'm under your spell

Boy you ain't no superman
I love it with your hands all over me
Boy you ain't no superman
But somehow you have got a hold of me
Boy you ain't no superman
I love it with your hands all over me
Boy you ain't no superman
But baby you've just got a hold of me

I let you have your way
I'm in your hands like clay
Our chemistry is strange
Boy I admit it

You're in my head
I know that you can tell
We've only just met
But I'm under your spell

Boy you ain't no superman
I love it with your hands all over me
Boy you ain't no superman
But somehow you have got a hold of me
Boy you ain't no superman
I love it with your hands all over me
Boy you ain't no superman
But baby you've just got a hold of me

And if you're going down down
You're taking me
And if you're going down down
You're taking me
And if you're going down down
You're taking me
And if you're going down down
You're taking me

You're in my head
You're in my head

Boy you ain't no superman
I love it with your hands all over me (Ain't no superman)
Boy you ain't no superman (Ain't no superman)
But somehow you have got a hold of me (Ain't no superman)
Boy you ain't no superman (Ain't no superman)
I love it with your hands all over me (Ain't no superman)
Boy you ain't no superman (Ain't no superman)

But baby you've just got a hold of me (Ain't no superman)

And if you're going down down
You're taking me
And if you're going down down
You're taking me
And if you're going down down
You're taking me
And if you're going down down
You're taking me
