

Enough is Enough

Gabriella Rose

The Lord said why do you grumble and fret
I've sent manna down from heaven are you satisfied yet
I said Lord I need a map and my bones are tired
So Lord lit my path with a pillar of fire

Still I called upon the Lord, I said I don't trust the government
He said, give unto Caesar pay your dues and settle all your debt
What's done in the dark, will come to the light
So keep your chin up kid and suffer the fight

Light my way, show me the path
Test me by fire beat the devil back
My feet won't fail, my mind's made up
Sometimes a man's gotta say Enough is enough

Still I said to the Lord, the world is getting bad
Might as well cheat, take what I can grab
Why walk a narrow path when I'm already beat
I spent forty long years in the desert heat

The Lord said do you trust me, do you believe in truth
That there's a line 'tween good and evil
I said I believe I do
Then a man who knows what's right will stand when something's wrong
Soon you're gonna know exactly which side you are on

Light my way show me the path
Test me by fire beat the devil back
My feet won't fail, my mind's made up
Sometimes a man's gotta say
Enough is Enough
Enough is enough

Light my way show me the path
Test me by fire beat the devil back
My feet won't fail, my mind's made up
Sometimes a man's gotta say
Enough is enough
