

Call Me

Gabrielle Aplin

You know who you are
I told you I was happy
When I couldn't be worse
Told you to leave me alone
And couldn't want you more
And I regret it
You know who I am
I think you know deep down I'm good
But I make terrible choices
I make them for everyone else
And forget what I wanted
And what I really wanted
Was you

Maybe it's been too long
But if you hear this song

Call me
My door's always open
And my phone's always on
Call me

I wish I went out
I wish I called you back
I wish I had a hold of my issues
But I just wrote a song
'Bout how much I miss ya
And I never told you
I know who I am

Maybe it's been too long
But if you hear this song

Call me
My door's always open
And my phone's always on
Call me

It's no use, you know me better than I know myself
Know how to love me and I didn't notice, and I couldn't tell
Accustomed to chaos
Your kindness made me feel I should be somewhere else
And you probably hate me now
But if you don't somehow
Call me

Maybe it's been too long
But if you hear this song

Call me
My door's always open
And my phone's always on
Call me

Call me
