

Little Light

Gabrielle Aplin

Little light
You shine so bright
In the dead of night you draw the line
My little light
Time to go
Bitter road
I'm gonna make it glow
Just so you know
The way back home
I'm gonna make it glow
Just so you know
The way back home

Back to me
Back to me
Back to everything we thought we couldn't leave
Back to me
You and me
I wanna hold you tight and watch you wander free
Back to me
Back to me

Little spark
You go so far
When times are hard, you light the dark
My northern star
Never change
No matter what they say
Seasons change, night or day
You'll find your way
Seasons change, night or day
You'll find your way

Back to me
Back to me
Back to everything we thought we couldn't leave
Back to me
You and me
I wanna hold you tight and watch you wander free
Back to me
Back to me

Little light
You shine so bright
