Love Back

Gabrielle Aplin

Always your way
Won't bend, we break
I give, you take
And now I'm runnin' out
Of patience, I'm waitin'
You're so disappointin'
'Cause I give, you take
And now I'm runnin' out

Of time, none left for me or anyone else
So why, do you always think of yourself?

Only wanna know me when you're lonely
Only call me when there's no one else around
Give me all my time back
Give me all my love back
All I ever did is try to love you
All you did was bleed me dry
But you don't even text back
So now I want my love back
Give me all my love back

I give, always
But this works two ways
Now it's too late
Too bad I've worked you out
I know that look
It's school boy, it's text book
This game, it won't work
Too bad I've found you out

This time, you won't take from me and nobody else
'Cause I, I need to look out for myself

Only wanna know me when you're lonely
Only call me when there's no one else around
Give me all my time back
Give me all my love back
All I ever did is try to love you
And all you did was bleed me dry
But you don't even text back
So now I want my love back
Give me all my love back
(Give me all my love)

You called me up again
You want us back together
Say you're gonna change
Sayin' you'll be better
Tellin' me it's our time
It's now or never
You only think of yourself

You called me up again
You want us back together
Say you're gonna change
You're tellin' me whatever

But I heard it for the last time ever, ever
'Cause I need to think of myself

Only wanna know me when you're lonely
Only call me when there's no one else around
Give me all my time back
Give me all my love back
All I ever did is try to love you
And all you did was bleed me dry
But you don't even text back
So now I want my love back
Give me all my love back

Give me all my time back
Give me all my love back
Give me all my love back

Only wanna know me when you're lonely
Only call me when there's no one else around
