

Over

Gabrielle Aplin

I remember you wanted
To get up close when you're home
Taking straight to that bedroom
I don't know where we lost it
Was it that trip to New York?
Was it that party we went to?

You used to say things you didn't mean
But this time I felt you meant it
You used to love all the parts of me
But this time you're just pretending
Spilling drinks and spilling feelings
Say it ain't, you say you're leaving
And this time I believe ya

I can't get over that it's over
And how you got closure
Can't deal with this sober
I can't get over that it's over
Oh, how I'm supposed to?
I wish I could hold you
I can't get over that it's over
I can't get over that it's over (Higher, higher, higher)

Do you remember that summer?
And we went back to your parents'
We didn't have to pretend then
No, we skipped a few chapters
We were getting high from magic
Lost it all when we're landing

You used to say things you didn't mean
But this time I felt you meant it
You used to love all the parts of me
But this time you're just pretending
Spilling drinks and spilling feelings
Say it ain't, you say you're leaving
And this time I believe ya

I can't get over that it's over
And how you got closure
Can't deal with this sober
I can't get over that it's over
Oh, how I'm supposed to?
I wish I could hold you
I can't get over that it's over (Higher, higher, higher)
I can't get over that it's over (Higher, higher, higher)
I can't get over that it's over
