

Side by Side

Gabrielle Aplin

After all that we've been through
Who'd have thought that we'd be here?
Take a breath and look around you
Can you hear it loud and clear?

Did you tell yourself a story
And sing it in your room?
'Cause I told myself a story
And I just can't believe that we're living it

Side by side
You and I
This is all I've ever wanted
I feel like I can fly
It's some superpower magic
And all my lives
All my nights
I would give them all to you 'cause
Side by side
You and I
This is all I've ever wanted

I had dreams of a hero
Out of nowhere you appeared
Sweet sweet music all around you
Everybody wants to hear

'Cause I told myself a story
And I just can't believe that we're living it

Side by side
You and I
This is all I've ever wanted
I feel like I can fly
It's some superpower magic
And all my lives
All my nights
I would give them all to you 'cause
Side by side
You and I
This is all I've ever wanted

And I just can't believe that we're living it

Side by side
You and I
This is all I've ever wanted
I feel like I can fly
It's some superpower magic
And all my lives
All my nights
I would give them all to you 'cause
Side by side
You and I
This is all I've ever wanted
