

# Strange

Gabrielle Aplin

I've always been afraid of my mistakes  
Scared of what it could've been  
Safe in my embrace  
Always thought that I would never change  
But there's somethin' in your short reply  
That's keepin' me engaged

This love I've found here  
Can't help but doubt it  
The more you leave  
The more I stay  
So warn me 'bout it  
You can call me clouded  
I'm divin' deeper anyway

Isn't it strange?  
I don't wanna walk away  
I just wanna go wherever heaven takes me  
Even through the flames  
Isn't it strange,  
How I don't want to play it safe?  
This ain't gonna be forever  
Like the petals on the rose you gave  
But isn't it strange?

I kinda like the way there's no control  
I don't know where this could go  
I'm followin' your ghost  
And I'm tempted by the silence on your line  
Obsessed with every single lie  
The way you make me cry

This love I've found here  
Can't help but doubt it  
The more you leave  
The more I stay  
So warn me 'bout it  
You can call me clouded  
I'm divin' deeper anyway

Isn't it strange?  
I don't wanna walk away  
I just wanna go wherever heaven takes me  
Even through the flames  
Isn't it strange,  
How I don't want to play it safe?  
This ain't gonna be forever  
Like the petals on the rose you gave

Isn't it strange?  
Strange  
Strange, oh  
Isn't it strange?  
Strange  
Strange

Isn't it strange?

I don't wanna walk away  
I just wanna go wherever heaven takes me  
Even through the flames  
Isn't it strange,  
How I don't want to play it safe?  
This ain't gonna be forever  
Like the petals on the rose you gave  
Isn't it strange?
