

# Used to Do

Gabrielle Aplin

Time went slowly  
But then it hit me 'round the head  
I'm not quite over this just yet  
I thought I'd let go gently  
But I've been holding on too tight  
And it still keeps me up at night  
It isn't right

It's not healthy  
To stay homesick for so long  
When you don't feel like you belong  
Because I have these memories  
But some got lost along with time  
And some still linger in my mind  
It's hard to find somewhere to go  
But I just wanted you to know that I've come home

Can you hear me?  
Tell me that you feel it, too  
Do you still know me  
Like you used to do?

Nobody loves me like you used to do  
Nobody loved me like you used to do  
Do you still need me  
Like you used to do?

I've seen colors  
Shining from the other side  
When they're close enough, they're blinding  
And they pull you under  
Show you what you left behind  
Until you slowly realize  
You'll never find a place to go  
But I just wanted you to know that I've come home

Can you hear me?  
Tell me that you feel it, too  
Do you still know me  
Like you used to do?

Nobody loves me like you used to do  
Nobody loved me like you used to do  
Do you still need me  
Like you used to do?

No, no, no, no, no, nobody  
Nobody loves me like you used to do  
No, no, no, no, no, nobody  
Nobody loves me like you used to do, love

Can you hear me?  
Tell me that you feel that, too  
Do you still know me  
Like you used to do?

Nobody loves me like you used to do

Nobody loved me like you used to do  
Do you still need me  
Like you used to do?
