

# Waking up Slow

Gabrielle Aplin

Heaven help me  
My mind changes like the wind  
Please excuse me  
I don't know where to begin  
But I  
Didn't think I cared  
I could be your friend  
But I'm unprepared  
Oh, I've never felt like this  
I was unaware  
You were lighting flares  
Now I'm running scared  
Oh, how did it come to this?

You know I've never  
Been so lonely on my own  
And it shows  
'Cause I don't see you  
Like I used to  
Now I'm going back on the things that I know

Oh, all my nights  
Taste like gold  
Yeah, when I'm with you  
It's like everything glows  
And all my days  
We can lay low  
Yeah, when we're waking up  
We're waking up slow

I can rearrange  
Would you do the same?  
I don't wanna change  
But you're just too good to miss  
'Cause I'm intertwined  
And I'm running blind  
But I don't mind  
I'm so glad it came to this

You know I've never  
Been so lonely on my own  
And it shows  
'Cause I don't see ya  
Like I used to  
Now I'm going back on the things that I know

Oh, all my nights  
Taste like gold  
Yeah, when I'm with you  
It's like everything glows  
And all my days  
We can lay low  
Yeah, when we're waking up  
We're waking up slow

It's a little bit clearer now  
I love you like the sun came out

Oh, we're waking up  
We're waking up slow  
It's like I never had a doubt  
I love you like the sun came out  
Oh, we're waking up  
We're waking up

Like I told ya  
Don't look backwards  
'Cause now I see you here  
Nothing else matters  
Like I told ya  
Don't look backwards  
'Cause now I see you here  
I'm going back on the things that I know

Oh, all my nights  
Taste like gold  
Yeah, when I'm with you  
It's like everything glows  
And all my days we can lay low  
Yeah, when we're waking up  
We're waking up slow

It's a little bit clearer now  
I love you like the sun came out  
Oh, we're waking up  
We're waking up slow  
It's like I never had a doubt  
I love you like the sun came out  
Oh, we're waking up  
We're waking up
