

Always

Gabrielle

Baby, although we never talked
There's something bringing back all those memories
Baby, you never understand
Just how much you've been, you've been a part of me

Hey, I know
You turn my world apart, yeah
I know
But I'm still forgetting you, yeah

(Help me babe)
I thought that is all over
You're gonna find it's true
(Help me babe)
No one's gonna love you babe
The way I loved you
(Help me babe)
I thought that is all over
I miss you like no other
(Help me babe)
And one day you'll discover
That I'll always love you
I will always love you
I will always love you
I will always love you
Love you

Baby, how you broke my heart
That I wonder how, I wonder how you are
And do ya, do ya think of me
And how we used to be before we fell apart

Hey, I know
You turn my world apart, yeah
I know
But I'm still forgetting you, yeah

(Help me babe)
I thought that is all over
You're gonna find it's true
(Help me babe)
No one's gonna love you babe
The way I loved you
(Help me babe)
I thought that is all over
I miss you like no other
(Help me babe)
And one day you'll discover
That I'll always love you
I will always love you
I will always love you
I will always love you
Love you

Baby, as if what be a shame
To never talk again would be too much for me
Baby, do you think his friends

We can put them into all the hurt that's been

Hey, I know
You turn my world apart, yeah
I know
But I'm still forgetting you, yeah

(Help me babe)
I thought that is all over
You're gonna find it's true
(Help me babe)
No one's gonna love you babe
The way I loved you
(Help me babe)
I thought that is all over
I miss you like no other
(Help me babe)
And one day you'll discover
That I'll always love you
I will always love you
I will always love you
I will always love you
Love you

(Help me babe)
Nobody love you like I
(Help me babe)
Nobody love you like I do
(Help me babe)
Nobody love you like I
(Help me babe)
Nobody love you like I do
(Help me babe)
Nobody love you like I
(Help me babe)
Nobody love you like I do
(Help me babe)
Nobody love you like I
(Help me babe)
Nobody love you like I do
