

Breathe

Gabrielle

I was looking for the light
Didn't know what I'd find
But I had to stay on the move
Didn't know I'd lead here to you
Now I understand
That you can never plan
'Cause things come out the blue

Just let us breathe
What is meant to be will be, yeah, yeah

Now I don't wanna get ahead of myself
I don't wanna get excited
I don't wanna say what this all means to me, yeah

But I feel like I've been waiting for somebody like you
But I just want you, I've been waiting just for you
And I feel like I've been waiting for somebody like you
But I just want you, 'cause you taught me to breathe

Just let us breathe
What is meant to be will be, yeah, yeah

I believe in fate
'Cause it happened on the day
You walked into my life
Couldn't get you off my mind

Now I don't wanna get ahead of myself
I don't wanna get excited
I don't wanna say what this all means to me

But I feel like I've been waiting for somebody like you
But I just want you, I've been waiting just for you
And I feel like I've been waiting for somebody like you
But I just want you, 'cause you taught me to breathe

Just let us breathe
What is meant to be will be, yeah, yeah
Just let us breathe
What is meant to be will be, yeah, yeah

Now I don't wanna get ahead of myself
I don't wanna get excited
I don't wanna say what this all means to me

And I feel like I've been waiting for somebody like you
Meet somebody like you, I've been waiting just for you
And I feel like I just want you, oh
I've been waiting for somebody like you
I've been waiting for somebody like you
I've been waiting for somebody like you
Somebody like you
