

Can't Hurry Love

Gabrielle

Sometimes it feels like
We're moving too slow
You said you were into me
But you're too afraid of letting go

Sometimes I wonder
I wonder what you feel
You've got me running so scared
But deep down I know it's real

Standing under the moon light
You're the man of my dreams
We have a connection
That needs no apology

You made me feel like something
You made me love my life
It's here with you where I belong
I belong

And with you is when I come alive
Come alive
It's a shame I'm craving you
But you can't hurry love

Sometimes I wonder
How's this gonna go
All I know is that we have a
Future At the starting block
Ready to go

We don't have to question What
We already know
You told me that I complete you
And that I had you at hello

You made me feel like something
You made me love my life
It's here with you where I belong
I belong

And with you is where I come alive
Come alive
It's a shame I'm craving you
But you can't hurry love
No no no, no

I ain't even gonna try to resist you
Damn I knew from the moment I kissed you
Boy, I was in trouble
I ain't even gonna try to resist you
Damn I knew from the moment I kissed you
Boy, I was in trouble
