

# Change

Gabrielle

(I'm not in love) Yeah  
(I'm not in love)

I love myself too much to be in doubt  
Everything you say now I can do without  
It used to please you to place me in a box  
You have me down as somebody that I'm not

My time with you  
I could never be myself  
I played a role  
Pretended to be someone else

Everything you ever knew about me  
I've changed so much you wouldn't believe  
And I'm not the same as I was  
'Cause all your mistakes, they're not in the past  
And now you need to know I'll never take you back  
I'm not in love, I'm not in love

Everything you say doesn't have the same affect  
As I grew to love myself you lost my respect  
And you don't get it, it goes over your head  
This change in me is something you can't accept

My time with you  
I could never be myself  
I played a role  
Pretended to be someone else

Everything you ever knew about me  
I've changed so much you wouldn't believe  
And I'm not the same as I was  
'Cause all your mistakes, they're not in the past  
And now you need to know I'll never take you back  
I'm not in love, I'm not in love

The woman that I used to be  
She's gone forever can't you see  
And nothing you can say or do  
I'll never make my way to you  
Your clever words won't undermine  
We'll never go back to a time  
When you were strong and I was weak  
The tide has turned, you're on your knees

Everything you ever knew about me  
I've changed so much you wouldn't believe  
And I'm not the same as I was  
'Cause all your mistakes, they're not in the past  
And now you need to know I'll never take you back  
I'm not in love, I'm not in love

(I'm not in love)  
(I'm not in love)
