

Conquer

Gabrielle

Your love it gives me focus
When I'm in need of clarity
Doesn't matter if I lose my way
'Cause you're always finding me

I always love the way you notice
How I find it hard some days
And when my head is just too full of thoughts
You always know just what to say

You always show me that you got me
Your smile goes a long long way
And when you wrap your arms around me
It's in your arms when I feel safe

With you I can do anything
The battle is won
The battle is won

And your love it gives me focus
When I'm in need of clarity
Doesn't matter if I lose my way
'Cause you're always finding me
And your love is like my armour
I know you'll catch me when I fall
Together we are stronger
We can conquer it all

(Your love it gives me focus
When I'm in need of clarity)

I love the way, the way you show me
That it really is OK
To not always have the answers
And it's OK to feel your way

With you I can do anything
The battle is won
The battle is won

'Cause your love it gives me focus
When I'm in need of clarity
Doesn't matter if I lose my way
'Cause you're always finding me
And your love is like my armour
I know you'll catch me when I fall
Together we are stronger
We can conquer it all

I love the way
You make me feel ten foot tall
I love the way you let me know
You'll catch me when I fall

Your love it gives me focus
When I'm in need of clarity
(Doesn't matter if I lose my way

'Cause you're always finding me)
And your love is like my armour
I know you'll catch me when I fall
Together we are stronger
We can conquer it all

Your love is like my armour
I know you'll catch me when I fall
Together we are stronger
We can conquer it all
