

# Have You Ever Wondered

Gabrielle

As I look back in time  
It's clear for me to see  
That I was meant for you  
And you were meant for me  
Since the day we met  
Had only eyes to see one another  
No one else could compete

Looking back I remember  
All the fun and games  
And what we've got right now  
Really hasn't changed  
Cos we always believed  
Believed in what we had  
So we did, did our best to make it last

Cos I have a love for you unbreakable  
I have a love for you so strong  
I have a love that's oh so deep  
Cos I've loved you all along  
Cos I have a love for you unbreakable  
I have a love for you so strong  
I have a love that's oh so deep  
Cos I've loved you all along

Well have you ever wondered  
how we ever came to be  
Have you ever wondered why  
there's still a you and me  
Have you ever wondered why  
I haven't turned and walked away  
And why I stayed  
So have you ever wondered  
how we ever came to be  
Have you ever wondered why  
there's still a you and me  
Have you ever wondered why  
I haven't turned and walked away  
And why I stayed

Many times I wondered  
How we've kept our love alive  
Cos we've come thru some things  
That others don't survive  
but we've always believed  
Believed in what we had  
So we did, did our best to make it last

Cos I have a love for you unbreakable...

So have you ever wondered how  
we ever came to be...

So have you ever wondered how  
we ever came to be...
