

Holding On for You

Gabrielle

I'm looking away
But I know
Know that you noticed me long ago
It doesn't matter we've got time
We got the rest of our life

You don't know
You don't know it yet
I'll be the centre of your world
If you choose to take it there

You don't know
You don't know it yet
How we're gonna rule the world
Have a time we won't forget

I, I will wait for you
Time will be nothing
Time will be nothing
When you fall in love
Nothing you can't do
Time will be nothing
Time will be nothing
Holding on for you

I'm gonna wait
Cause you don't know
Just how close love is
Ready to go
Take all the time
As long as you like
When you're ready
Come step inside my life

You don't know
You don't know it yet
How we're gonna rule the world
Have a time we won't forget

You don't know
You don't know it yet
How we're gonna rule the world
Have a time we won't forget

I, I will wait for you
Time will be nothing
Time will be nothing
When you fall in love
Nothing you can't do
Time will be nothing
Time will be nothing
Holding on for you

I, I will wait for you
Time will be nothing
Time will be nothing
When you fall in love

Nothing you can't do
Time will be nothing
Time will be nothing
Holding on for you
