

Never

Gabrielle

The pieces that you gave me
I thought that I had struck gold
Got me falling deeper
Falling deeper as love took a hold
I was happy thought you were the one
But we didn't know
That the fade to grey was yet to come

Even though we tried to deny it
We wasn't going anywhere
Even though I knew I loved you
I couldn't stay here

I'll never, never regret my time
Spent with you
I never, never felt alive
Like I did with you
I never, never felt alive
Till you gave me hope
Never felt this way before
But I gotta let you go

Now I'm understanding why
Why I couldn't let go of us
So enamoured by this thing called love
All the good we shared
They will stay true yeah
I laughed more than I cried with you

Even though we were not perfect
I would have followed you anywhere
All I knew was that I loved you
But I couldn't stay here

I'll never, never regret my time
Spent with you
I never, never felt alive
Like I did with you
I never, never felt alive
Till you gave me hope
Never felt this way before
But I gotta let you go

I'm sorry we didn't make it
But I really tried
I tried to be the perfect fit
But it wasn't right
I've got a lot of love for you
And I know that you love me too
We're bonded now for life
We're bonded now for life

I'll never, never regret my time
Spent with you
I never, never felt alive
Like I did with you
I never, never felt alive

Till you gave me hope
Never felt this way before
But I gotta let you go
