

Now and Always

Gabrielle

I don't wanna go
But nothing makes me stay
And I don't wanna lose you
But I've gotta walk away

This doesn't feel like home
What we had is what I lived for
To leave that all behind us
Things will never be the same

Time and time again
You said we should end it just be friends
Your words are what became us in the end

All I wanted
Was for you to
Say you love me
And never leave
All I wanted
Was for you to
Makes me yours
Now and always
Now and always

Have to face the truth
I want this more than you do
And I can't make you fight for
What you don't feel inside

Time and time again
You said we should end it just be friends
Your words are what became us in the end

All I wanted
Was for you to
Say you love me
And never leave
All I wanted
Was for you to
Makes me yours
Now and always

I never thought that I would end up like this
But it's you that I miss
And your love
Now and always
I never thought
That I'd be walking away
With my heart so afraid
That I'd fail

All I wanted
Was for you to
Say you love me
And never leave
All I wanted
Was for you to

Makes me yours
Now and always

All I wanted
Was for you to
Say you love me
And never leave
All I wanted
Was for you to
Makes me yours
Now and always

Time and time again
You said we should end it just be friends
The words that you have spoken
Now the truth
