

# Shine

Gabrielle

I don't wanna waste it  
You give me a taste of  
Who you are, who you are  
You should leave your lights on  
'Cause I can be a love song  
That feeds your heart, that feeds your heart

All I need's an open door  
That you'll hold open once you're sure  
For me

If I could make you mine  
If I could make you mine  
I would make us shine, shine, shine forever  
If I could make you mine  
If I could make you mine  
I would make us shine, shine, shine forever

If I could be your feather, be your feather  
I would find a way to fall into your heart  
And I would make you mine  
And I would make us shine  
I would make us shine, shine, shine forever

I wanna hear your heartbeat  
I wanna have you closer  
Here with me, next to me  
Won't you spare a little time  
I wanna show you what it's like  
To be with me, be with me, yeah

All I need's an open door  
That you'll hold open once you're sure  
For me

If I could make you mine  
If I could make you mine  
I would make us shine, shine, shine forever  
If I could make you mine  
If I could make you mine  
I would make us shine, shine, shine forever

If I could be your feather, be your feather  
I would find a way to fall into your heart  
And I would make you mine  
And I would make us shine  
I would make us shine, shine, shine forever

And I'll keep holding on  
I know that you're the one  
I will be patient till I'm in your arms  
If all you need is time  
I know we'll be alright  
Somehow I'll be just fine

If I could make you mine  
If I could make you mine

I would make us shine, shine, shine forever  
If I could make you mine  
If I could make you mine  
I would make us shine, shine, shine forever

If I could be your feather, be your feather  
I would find a way to fall into your heart  
And I would make you mine  
And I would make us shine  
I would make us shine, shine, shine forever
