

# Sorry

Gabrielle

(I never stopped, never stopped loving you)  
(I never stopped, never stopped loving you)

Sorry doesn't cut it  
You have to know I'm gutted  
Will I ever get the chance again?  
I'm hoping that you change your mind  
All your friends say give it time  
Heat of the moment regrets  
I said things I should never have said

I'm sorry for all the things I did that you can't forgive  
How I made you cry, gave you sleepless nights  
And I'm sorry that I lost your trust for disrespecting us  
Now I pay the price, the price is high

Sorry doesn't cut it  
This isn't what I wanted  
Will I ever get your heart again?  
Don't misunderstand me, I'm  
Exactly where I should be  
On the outside, looking in  
There's an empty space  
Where I should have been

I'm sorry for all the things I did that you can't forgive  
How I made you cry, gave you sleepless nights  
And I'm sorry that I lost your trust for disrespecting us  
Now I pay the price, the price is high

I'm really, really sorry  
Really, really sorry now  
I'm standing here alone  
Hoping you can help me out  
I don't know what to do  
But I never stopped loving you  
Tell me, what I gotta do?  
I never stopped loving you  
(Never stopped, never stopped, never stopped)

'Cause I  
I'm really, really sorry now  
I'm sorry now  
'Cause I  
I'm really, really sorry now  
I'm sorry now

I'm sorry  
I'm sorry now  
I'm sorry now
