Stop Right Now

Gabrielle

I don't understand where we went wrong, uh-uh-huh-huh
Thought all we had was way too strong
And if it takes one thing to get us to this place
Then I know lets me know we're losing faith

And if we stop long enough to catch our breath
We can save what's left

And if we stop right now
I won't be crying, think we should try it
Just take my hand and tell me that you understand
And if we stop right now
I think we can ride it, maybe we'll fight it
And if we stop right now, then we can try
To make it right

Living without us doesn't work, mmh-hm-hm-hm
Should do what we can to ease the hurt
But every solution was for us to take, baby
Hoping that we'll get back again

And if we stop long enough to catch our breath
We can save what's left

And if we stop right now
I won't be crying, think we should try it
Just take my hand and tell me that you understand
And if we stop right now
I think we can ride it, maybe we'll fight it
And if we stop right now, then we can try
To make it right

Don't know what the future holds
But I don't wanna let us go
Who knows what the future holds, no I don't know
But I never wanna let us go

And if we stop right now
I think we can ride it, maybe we'll fight it
And if we stop right now, I think we can try
To make it right
And if we stop right now
And if we stop right now
And we could stop right now, then we can try
To make it right
