

# Stronger

Gabrielle

Take the lead, my faith, there's no need to be afraid  
But just in case you find yourself ingrained  
Everyone's a stranger of feather, lead and gold  
There's so much more to know

[?] will ease your pain  
Don't you recognize my face, the time, this place  
All I'm saying is that  
I wish that you could see this, just open up your eyes  
I know that we can make it, all you have to do is try

Don't give up  
And don't let go  
What makes you stronger  
Will hurt the most  
I'll pick you up  
Just don't let go  
What makes you stronger  
Will hurt the most

It's only gonna make you stronger  
Whatever hurts you the most  
It's only gonna make you stronger

Blind, I couldn't see, where you are right now  
It's where I used to be  
If you're looking for the answer I'll help you get there fast  
Girl, I got you in my heart

The truth will set you free, all you need  
Is just a little self belief  
All I'm saying is that  
I wish that you could see this, just open up your eyes  
I know that we can make it, all you have to do is try

Don't give up  
And don't let go  
What makes you stronger  
Will hurt the most  
I'll pick you up  
Just don't let go  
What makes you stronger  
Will hurt the most

It's only gonna make you stronger  
Whatever hurts you the most  
It's only gonna make you stronger

Don't give up  
And don't let go  
What makes you stronger  
Will hurt the most  
I'll pick you up  
Just don't let go  
What makes you stronger  
Will hurt the most

Don't give up  
And don't let go  
What makes you stronger  
Will hurt the most  
I'll pick you up  
Just don't let go  
What makes you stronger  
Will hurt the most

It's only gonna make you stronger  
Whatever hurts you the most  
It's only gonna make you stronger
