

Taken Over

Gabrielle

Love's taken over
Love's taken over

Can you tell me what it is
That makes you feel
Feel like this
I can't get over, when we kiss
Got me tingling down to my finger tips

What it is to be loved
What it is to be loved by you

And it feels like I've been waiting for somebody to love me
Like you love me
And it feels like we've got something
Love's taken over
Love's taken over

When we're talking, I feel heard
Like I'm the only girl in your universe
What you're doing, baby, it works
Your love has washed away all of my hurt

What it is to be loved
What it is to be loved by you

And it feels like I've been waiting for somebody to love me
Like you love me
And it feels like we've got something
Love's taken over
Love's taken over

Couldn't turn off all my feelings, if I wanted to
And it's too late 'cause of all the things you say and do
I'm loving how I'm seen by you
Like Prince said
The most beautiful girl in the world

How I'm seen by you
My favourite Prince tune

How I'm seen by you
Make me feel so good
Like Prince said
Somebody to love me like you do
Your love, your love
I can overthink you
Taken over, taken over
Oh, I know that we got something
And it feels like
Love's taken over
