

Angels & Queens

Gabriels

Baby girl is fine and nineteen
Raised on catfish and collard green
Brown eyes smelling real sweet
Kitty tight with a strong heartbeat

The way she put that thing on me that ooh wee nana
Make lose control
Michael said "she gon' break my heart
And then take my soul"

Angels (just like it's always been) and queens
Somebody help me

Baby girl up in the magazine
BJ darling of the fashion scene
Sold her soul to be a beauty queen
That's the worst damn deal I ever seen

Nobody said that you ain't got the face
That changed the game and change it all
You're just another motherfucker looking up
At a mirror ball

Angels (just like it's always been) and queens
Somebody help me

I've been feeling alone (somebody help me)
Still believing that this would grow (somebody help me)
I've been meaning to let you know (somebody help me)
It's time now for me to go (somebody help me)
This glass ceiling is falling through (somebody help me)
Still I am nothing without you

I don't need nobody but you and me
I can conquer anything
I don't need nothing but your love and time
It'll be just fine
When I think of all the things we went through
No matter what I stayed true
Through the ups and downs, I
Realized all that I needed was you

Angels (angels and queens) and queens
(You and me, we will always be)
(Angels) angels (and queens) and queens
(Just like it's always been
Just like it's always been)
Angels (angels) and queens (and queens)
Angels (we will always be) and queens (you and me, we will always be)
Angels and queens
