

# Glory

Gabriels

Let me tell you a story  
Of a girl up in Glory  
She had the world in her hand  
Even Hades was a fan

You can fake it for a little while  
When you're lying to yourself  
You pretend and you try to hide  
From the cards that you've been dealt

I might be down right now but I  
Make do with what I got  
Ain't turn no water into wine but  
I make do with what I got  
I make a little a lot

In the valley of the kings  
All the glitters 'stravagant things  
It was all that it seemed  
In this nightmare of a dream

She took flight in her prime  
I hope she has a good time

I might be down right now but I  
Make do with what I got  
Ain't turn no water into wine but  
I make do with what I got  
I make a little a lot

You might be down right now but  
Get up  
It ain't no use in crying girl  
Get up  
Regret ain't won no war  
Get up  
Been down for way too long just  
Get up

You might be down right now but  
Get up  
It ain't no use in crying girl  
Get up  
Regret ain't won no war  
Get up  
Been down for way too long just  
Get up

I might be down right now but I  
Make do with what I got  
Ain't turn no water into wine but  
I make do with what I got  
I make a little a lot

I might be down right now but I  
Make do with what I got  
Ain't turn no water into wine but

I make do with what I got  
I make a little a lot
