Gabriels

Don't want your love and war no more
I want a sacrifice
I've shown and proved and I paid my dues
Won't let you get me twice
Mama ain't raised no fool I know you
You'd kill a mockingbird right
My daddy taught me a thing or two
You betta heed my advice

Give me something
Show me this thing was meant to be
Whatever it means it means something to me

Don't want your love and war no more
I need more than your time
You pick a fight damn near every night
Even your mama said it wasn't cool
I'd walk on broken glass
Damn near sold my ass
Gave you the shirt off my back
Gone through the fire
Godammit I'm tired
Why can't you just give me

(Give me) something (something)
Show me this thing was meant to be
Whatever it means it means something to me

(Give me something)
I can't live without
(Give me something)
To soothe all of my doubts
(Give me something)
To make it feel true
(Give me something)
I wanna see the other side of you

(Gimme gimme gimme something)
Make the good outweigh the bad
(Gimme gimme gimme something)
Turn the page ain't looking back
(Gimme gimme gimme something)
Saying sorry is a start
(Gimme gimme gimme something)
But you can't un-break a heart

(Give me something)
Show me this thing was meant to be
(Whatever it means it means something to me)
It means something to me
(Give me something)
Give me one reason, tell me I shouldn't leave
Whatever it means it means something to me

Whatever it means it means something to me
It means something to me
It means something to me
