Gabriels

Said the last time would be my last  
Damn didn't know you'd come so fast  
Bible says it's bad but not for me  
Don't bring me fruit then say I can't eat  
Shit so good it brought it me to my knees  
But all the god damn love in the world won't save me

Taboo  
You're the air I'm breathing  
Taboo  
You're the blood running in my veins  
Taboo  
I can't escape it  
Taboo  
I done risked it all for you  
Taboo

Things happen, people change  
This here we got still stays the same  
You've been treating me real bad and everybody knows  
I must be sick in the head, damn fuck I can't let you go  
Shit so sweet, damn sugar killing me  
Got me on my knees, but it's nowhere I'd rather be

Taboo  
You're the air I'm breathing  
Taboo  
You're the blood running in my veins  
Taboo  
I can't escape you  
Taboo  
I done damn near risked it all for you, taboo

Another tale, old as a time  
Another fool, done lost his mind  
Taboo
