

# The Blind

Gabriels

When you're close to me  
And it's hard to breathe  
When you feel that thing inside

When you're close to me  
It ain't s'posed to be  
The place I run and hide

We had everything  
Till you did that thing  
Now blue skies have gone

And still you don't  
Let your feelings show  
How can you sleep at night

Tears come out at night  
The pain comes when you cry

When you're close to me  
It's so hard to breathe  
Could have lost my life

It's the misery  
Not the mystery  
Of all of your lies

What I didn't do  
Was to face what's true  
My word to the wise

And then still you don't  
Let your feelings show  
How can you sleep at night

Tears come out at night  
The pain comes when you cry  
Still can't tell you why  
The blind leads the blind

Feeling like a thing in a zoo  
Lost in the tragedy of you  
And I still don't know why the caged bird sings  
Clearly I done lost my mind  
Wishing I could press rewind  
And take back all the shit we did

And the pain it brings  
And the pain it brings  
And the pain it brings
