

Another Night

Gabry Ponte

All or nothin'
Give me all your love, I wanna feel it
Wanna feel it
When we're touchin'
Pullin' you so close, I feel you breathin'
Feel you breathin'
And I know when I look inside your mind
You don't want somebody for the night
So I hope that you read between the lines
'Cause I've been givin' all the signs
Won't you stay another night?
Won't you stay another night?
Won't you stay another night?
On to somethin'
I know you feel every word I'm sayin'
That I'm sayin', oh
Feel it comin'
Give you all of me, I hope you take it
Can you take it? Oh-oh
And I know when I look inside your mind
You don't want somebody for the night
So I hope that you read between the lines
'Cause I've been givin' all the signs
Wo-wo-won't you stay another night?
Won't you stay another night?
Oh, girl, I swear you got a hold on me
I feel it every time your body's close to me
I swear you got control of me
And I don't wanna waste your time
Won't you stay another night?
Won't you stay another night?
Won't you stay another night?
