

Best Night

Gabz

Chilling in the dark, looking at the stars
Being who we are, cause I won't judge ya
Playing your guitar strumming along to the beat of my heart
Letting down my guard, I'm falling for ya

This could be the very start of
Something I've been wanting for so long
This could be the very start of
You and me

This could be the best night
You and me dancing in the starlight
I know, I know you like to take it slow but
This could be the best night
Oh oh uh oh uh uh oh oh oh uh oh uh uh oh

Secrets no one knows, scars we've never shown
Places we should go now we're together
When you hold me close never let me go
You won't be alone cause I'm here for ya

This could be the very start of
Something I've been wanting for so long
This could be the very start of
You and me

This could be the best night
You and me dancing in the starlight
I know, I know you like to take it slow but
This could be the best night
Oh oh uh oh uh uh oh oh oh uh oh uh uh oh

This could be (This could be)
You and me (You and me)
This could be (This could be)
You and me

This could be the best night
You and me dancing in the starlight
I know, I know you like to take it slow but
This could be the best night
Oh oh uh oh uh uh oh oh oh uh oh uh uh oh

This could be the best night
You and me dancing in the starlight
I know, I know you like to take it slow but
This could be the best night
Oh oh uh oh uh uh oh oh oh uh oh uh uh oh

The best night
