

# Dream

Gabz

She's just a girl with an imagination  
All she wants is to be on television  
Every night talking bout her life  
Yeah she craves the fame  
He's just a kid but he's got crazy plans  
He dreams big of when he's the type of man  
To move the world, to change it, ooh  
He wants to change the game

But they know people will doubt  
They'll work hard, make every second count  
Yeah they know people will doubt  
But they've got this, they're focused

So hands up if you got a dream  
One life so let's be free  
Let's all just be who we wanna be  
Then the whole world can be happy

She's just a teen with a dream of living  
In a world where people love and listen  
Every night and that's why  
She's up for the fight

But she knows people will doubt  
She'll work hard, make every second count  
Yeah she knows people will doubt  
But she's got this, she's focused

So hands up if you got a dream  
One life so let's be free  
Let's all just be who we wanna be  
Then the whole world can be happy

Hands up if you got a dream  
One life so let's be free  
Let's all just be who we wanna be  
Then the whole world can be happy

So everybody in the room put your hands up  
[?] all you gotta do is stand up  
All I really wanna do is [?]  
[?] whatever you think you wanna be too  
You were born [?]

Hands up if you got a dream  
One life so let's be free  
Let's all just be who we wanna be  
Then the whole world can be happy

Hands up if you got a dream  
One life so let's be free  
Let's all just be who we wanna be  
Then the whole world will be happy  
Then the whole world will be happy  
Then the whole world will be happy
