

Got a smile so loud that the world can hear it  
Got a heart so proud that I can't believe it  
Cause life's so good to me, good to me, good to me  
Yeah life's so good, it's so good  
Got so much love that the world can't hold it  
And I got big plans and they're all unfolding  
Cause life's so good to me, good to me, good to me  
Yeah life's so good, it's so good

So if you're feeling good tonight  
Wanna see your hearts up in the sky  
If you're feeling good tonight  
Put your hearts up in the sky  
And sing

I can be anything I wanna be  
No stopping now, no there's no one stopping me  
No looking down cause we're not going down  
We're only going up so put your hearts up

Got feelings so strong that I just can't hold back  
Been waiting so long but I'm making a come back  
Cause life's so good to me, good to me, good to me  
Yeah life's so good, it's so good

So if you're feeling good tonight  
Wanna see your hearts up in the sky  
If you're feeling good tonight  
Put your hearts up in the sky  
And sing

I can be anything I wanna be  
No stopping now, no there's no one stopping me  
No looking down cause we're not going down  
We're only going up so put your hearts up

Now everything, everything's so clear to me  
Now there's no doubts I'm exactly where I'm supposed to be  
No looking down cause we're not going down  
We're only going up so put your hearts up

Put your hands up high put your hearts up in the sky  
Cause this memory's golden  
Put your hands up high put your hearts up in the sky  
Take a picture and remember this moment

I can be anything I wanna be  
No stopping now, no there's no one stopping me  
No looking down cause we're not going down  
We're only going up so put your hearts up

Now everything, everything's so clear to me  
Now there's no doubts I'm exactly where I'm supposed to be  
No looking down cause we're not going down  
We're only going up so put your hearts up

Now everything, everything's so clear to me

Now there's no doubts I'm exactly where I'm supposed to be  
No looking down cause we're not going down  
We're only going up so put your hearts up
