

## Be Thy Cross My Victory

Gaia Epicus

A fire is burning in the night  
The stars are shining so bright  
It's always a silence before the storm  
But when hell breaks loose the rage is born

Listen to the voices inside you  
They will guide you and show you the way

We are far away from home  
We come from beyond the sun  
We fight for freedom my friend  
And we'll stand by you until the end

A warrior is raising his sword  
Screaming I will die for my lord  
The sound of steel and metal is so loud  
Raise your head look ahead and be proud

Be thy cross my victory, let me live for eternity

Requiem, Aternaem. Dona Eis Domine  
Dans La Glorie, De Ton Ciel  
(Almighty god, give us eternal rest, be thy cross my victory)

Time is changing world is burning  
Clock is ticking still we're not learning  
World is dying people are crying  
Have we all just gone insane?
