

Land of the Rising Sun

Gaia Epicus

Here we are, here we are and we're ready to go
Up in the sky, we can see that the earth is below

Welcome to our journey, we go to the east
To the land of the rising sun
We fly away over the mountains, we head to the east
To the land of the rising sun

A red sky, fills my eyes as we reach our goal
Feel the kindness, feel the respect of ancient souls
