A long time ago, in a galaxy far away  
The evil empire was building a force,  
destroying all in its way  
Lord Vader, he's the man in black  
Helmet of steel helps him to breathe,  
and with Jedi force he attack

The death star is near  
But the rebels have no fear  
The dark side of the force  
They'll never join

Star Wars, the rebel fleet is on the way  
Star Wars, they have come to save the day,  
Star Wars

A new hope is here, and he's gonna save us all  
He is so young but his force is so strong,  
Luke Skywalker is his name  
Our freedom, he's gonna bring back

He flies among the stars  
With the speed of light he goes  
The dark side of the force  
He'll never join

Star Wars, they have come to save the day,

Yoda my master  
Teach me how to fight  
The evil Lord Vader  
Is dying here to night

We fight for glory
