

## The System Is Down

Gaia Epicus

The system is down, sound the alarm  
A virus is now on the way  
Firewalls to protect the holes  
All we can do now is pray  
Power failure, shutting down, you must try to reboot now

Die, Painless infection  
Die, No resurrection  
Die, Destroy the creation  
Die, The system is down  
Download complete, the damage is done  
The virus is now spreading fast  
Infiltrating, dominating  
Just like a nuclear blast
