

Canoe

Gaia Mesiah

I have seen you diving
In your anguish
Did you notice

Why you strike the pose
And you're frightened
of your soul and so...

Only your dog knows
What you've been trying to
hide inside

Don't you act
in front of me
It's just a waste of time

Now we are close to END
Listen to the world of wasted land
Now we are close to END
Listen to the voice of promise land

Then I am walking through the little street
And there are many faces full of lies

I'm not interested what people think and settle behind
Cause it tries to hurts

MORNING OF MY LIFE

Now we are close to...

Sometimes I look like a sinner
I wanna be the same as a winner
You have a chance in your life
Don't be afraid of the words
That will degrade your little person
It's all about the trust and reasons

I listen to my consciouns everytime

I hate people which make me cry

Now we are....

The only time When my mood feels right
To be alone in the town
Celebrate the dawn
Coming now
MORNING OF MY LIFE
