

## In The Clouds

Galactic Cowboys

Take a trip with me to a distant place  
A world unknown to the imagination

You spread your wings  
And you look above  
Your mind forgets  
The cotton fields  
Bring fascination

Fly high in the sky  
Up in the clouds

You're high above  
Where the mind's at peace  
The answer's clear

The heavenlies bring inspiration

Fly high in the sky  
Fly high in the sky  
Fly high in the sky  
Up in the clouds

A world unknown to the imagination

Fly high in the sky  
Fly high in the sky  
Fly high in the sky  
Fly high in the sky  
Up in the clouds
